The General Programmer will develop systems for a wide-range of elements including the game engine and editor or any middleware used by the production teams.

- Firmness in using your programming language and motivation to improve it
- Experience with different programming patterns
- Willingness to follow coding convention
- Familiarity with working in large code bases
- Ability to read and blend into existing code
- being snooty about performance/memory implication about your code and the ability to iterate on it
- Knowledge of how to hunt bugs
- Preference to work in a code review environment
- Excellent communication and good English skills
- Curiosity about cutting edge technology and the desire to expand and share new insights
- Desire to mentor junior team members

Bonus:

- Having a clear idea over disadvantages/problems of common programming patterns
- Skill to improve performance/memory for non-owned or global systems
- Experience to architect complex systems
- Knowledge to work and design multi-threaded code
- Having worked in multi-platform projects
- Experience in debugging release versions and reading assembler

We aim to have a wide and diverse range of profiles within our studio; thus, we are looking forward to

being surprised by your application. The most important quality for us is to be a strong team player with a resilient and positive attitude.

What we want to offer you:

We want to build a studio in which everyone feels inspired, empowered and connected. We believe developers do their best work when they feel empowered. We thus aim to give you a lot of autonomy. In return, we expect you to be self-responsible and stay on top of your game by continuously developing your skills. Furthermore, we know it is important for a developer to feel comfortable. With that in mind, we aim to provide a variety of everyday benefits which we hope will help you feel great including:

- Flexible working hours
- External training, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruit, discounted gym membership, support for child care
- Subsidized lunch meals, free bike rental or lease your own bike!
- Share ideas! = Working in an innovative and international company

If you are passionate about video games and would like to work with like-minded professionals with an international team, please apply via our career portal. Applications should include your resume, a cover letter with the earliest starting date, your salary expectation and why you would like to join us.
