As a part of the team, you would be responsible to deliver the new web experience of Uplay PC, using a wide spectrum of technologies ranging from C# on the server to TypeScript, HTML and SCSS on the UI side.

You will join a multi-disciplinary team where everyone is willing to expand their knowledge and are encouraged to continue learning new things. The team is characterized by passion, comradery and the love for pc gaming. You will work in close collaboration with the other programmers, designers and testers with the opportunity to visit and work from collaborating studios.

Responsibilities:

- Write clear, modular and maintainable code
- Participate in or lead feature task forces for technical design and implementation/improvement of new features.
- Testing, debugging, profiling and maintaining existing code, including the Uplay PC back office self-service portal.
- Develop and maintain new public-facing web applications, shown in the Uplay PC client and on the web, using Vue.js for the client-side application and ASP.NET Core Web API server side.

You as a person:

We believe to succeed in this role you're a result focused person, who is passionate about developing platform software for games with millions of users. Furthermore, you believe in team ownership of what you craft and will be working with your colleagues to learn, share ideas and solve complex problems.

Excellent C#, JavaScript (TypeScript), CSS and HTML skills.

- 3+ years of professional programming experience.
- Bonus: Vue.js, ASP.NET Web API, .NET Core, AWS, ElasticSearch, Protocol Buffers, Continuous Integration.

Longing to be part of a fun, creative and passionate workplace? We can offer you this and more in an open and friendly environment where you will work with some of the best craftsmen in the industry. Are you up for it? Come aboard for the ride!
