We are looking for a Game Designer to join the ranks of our The Settlers Online Game Design team. This position will be located at Ubisoft Düsseldorf (Germany).

As a Game Designer, you will add content to the game, create and improve game features. Providing game mechanics that are fun is your highest priority. To achieve this goal, you will be working closely with colleagues from multiple disciplines

- Work as a part of the Game Design team to design, redesign and balance features and mechanics of the game
- Create and maintain the detailed design specification of features and support the development team accordingly in the implementation process
- Prototype and implement the designs in game while defining the quality metrics to assess their quality
- Facilitate communication between colleagues from various disciplines to ensure that the quality and implementation match the intended direction / vision
- Design the assigned game features and content in line with the project's vision and quality standards
- Iterate designs to continuously improve the game's quality
- Work closely with the team to ensure that the design specifications meet the quality expectations of the project
- Focus on the player experience as the ultimate metric for the quality of any feature and content
- Evaluate player feedback and improve features based on the analysis
- Work within the game tools to add content to the game

- Any degree in game design appreciated
- Understanding of psychological mechanisms that keep players engaged
- A sense of what makes gameplay experience compelling and fun
- Theoretical and practical Game Design knowledge
- Tools of the trade: Office, flowcharts, Photoshop, level editor
- Intense creativity, a passion to innovate, and the drive to go beyond what is directly asked of

you
- Ability to work with XML files
- Self-motivated and fast learning
- Good communication skills
- Be a team player
- Fluent in English, both verbally and written
