The employee will design and implement audio features for one or more projects, together with the Audio Designer and / or Audio Lead and under the supervision of the Audio Director. Furthermore, the employee will develop audio tools while working with our proprietary engines as well as the audio middleware Wwise.

- Develop systemic and specific features for several projects
- Develop audio tools in collaboration with Audio Designers and Programmers
- Improve and expand upon existing technology
- Develop future technology beyond state of the art

Development

- Design, implement, and iterate on new and existing audio systems and audio tools
- Work in C# on our integrated editor/game development tools
- Work in Unity3D
- Advise, review and help making tech reusable for multiple projects

Collaboration

- Collaborate with Audio Designers, Voice Designers and the localization team to develop systems for audio implementation
- Share knowledge and expertise among the audio team, supporting Audio Designers in finding technical solutions
- Work in close collaboration with other programmers, designers, artists and testers to craft high quality, scalable solutions

Support and Maintenance

- Contribute to maintenance of systems and pipelines
- Support multiple teams within Ubisoft with knowledge and practical help
- Write clear and concise documentation on audio systems and tools developed

Your benefits

- Flexible work hours
- External trainings, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruits, special conditions for gym membership, support for child care
- Subsidized lunch meals, possibility to rent bikes for free or lease your own bike!
- Working in an innovative and international company

We offer a highly interesting challenge for a team player including the possibility to show personal initiative.

If you are passionate about games and would like to work in the games industry, please apply via our career portal.

Applications should include the earliest starting date and your salary expectation.
