Build & Release

Joining Build & Release, a division of Ubisoft, you will be supporting game productions and tech teams in all their needs with build system, version control and automation for their projects. This means working inside the pipelines, behind the scene of the systems. Our goal is to enable the projects to do their work as efficient as possible. We currently have 3 cooperation's with large game projects across Ubisoft.

Your Impact

As our new DevOps Programmer you will have the opportunity to be a part of a stimulating, multi-cultural, ambitious but friendly studio.

Our team members are self-sufficient and have a problem-solving mindset, with the freedom in their work environment they are able to explore new solutions independently.

- Working on a AAA title using the Snowdrop technology
 - Maintenance and improvement of the existing build pipeline
 - Supporting developers with versioning software
 - Setting up CI/CD pipelines
-
- Solid understanding of C#
 - Strong experience with Build and Automation Pipelines
 - Experience building CI/CD systems
 - Ability to work on a strategic level and finding custom solutions for different specifications
 - Good debugging and problem-solving skills
 - Strong ability for analyzing and extending existing code
 - Good oral and written communication in English

Preferred additional experience

- Java/Python
- Perforce, Git, GitLab
- Automation software (e.g. Jenkins, Ansible, Custom)
- working on multi-platform projects

- C++ experience is a plus

Longing to be part of a fun, creative and passionate workplace? We can offer you this and more in an open and friendly environment where you will work with some of the best craftsmen in the industry. Are you up for it? Come aboard for the ride!

What We Bring
